ABOUT NUHS FUND

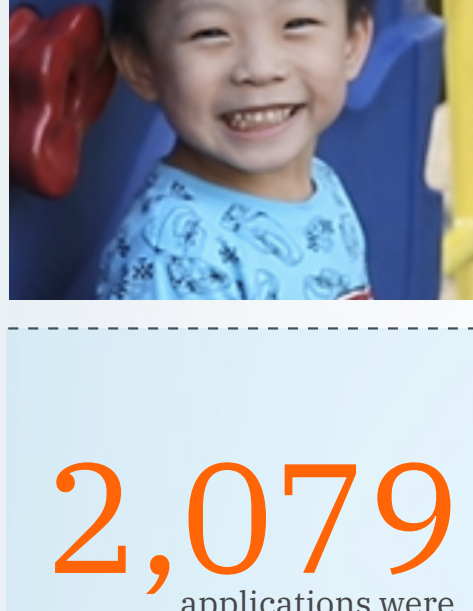

NUHS Fund is a Company Limited by Guarantee (CLG) and a registered charity with IPC status.

The charity was set up to promote medical research and development as well as provide health related services for the benefit of the Singapore Community.

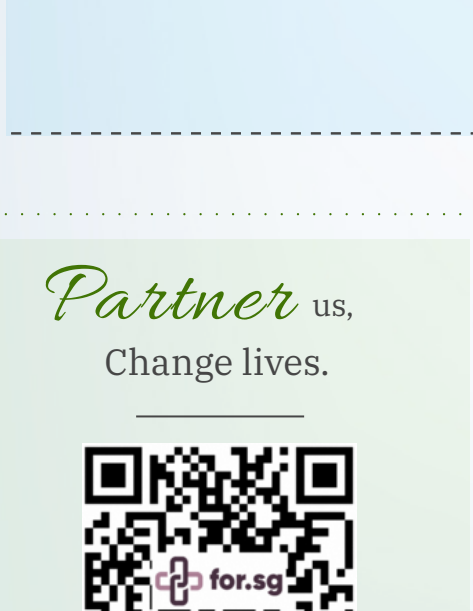

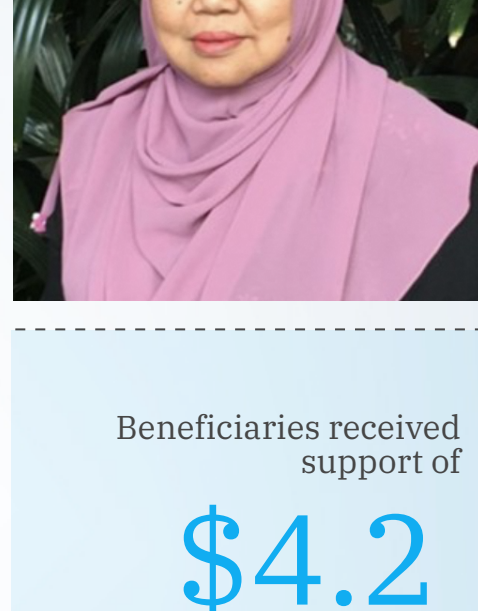

Your compassion to support patients, especially those assessed to be in financial need, will make a difference in their journey back to better health.

© This report is intended for donors. Please contact the NUHS Development Office at (+65) 6772 5552 or nuhsfund@nuhs.edu.sg should you wish to share this report with others.

Your Gift Matters!

Over the past two years, Mdm Riah, 45 years old, faced significant health challenges, having been diagnosed with both ovarian and thyroid cancer. She had undergone multiple surgeries for these conditions and is currently undergoing chemotherapy.

As a homemaker, Mdm Riah cares for her husband, two children, her father and grandmother. With her medical conditions, it is increasingly difficult for her to perform her usual tasks, such as taking her father and grandmother to medical appointments and cooking for her family.

Chemotherapy has taken a huge toll on her, leaving her fatigued. Financially, the cost of chemotherapy was also a heavy burden on the family as her husband's sole income is only enough to cover basic expenses.

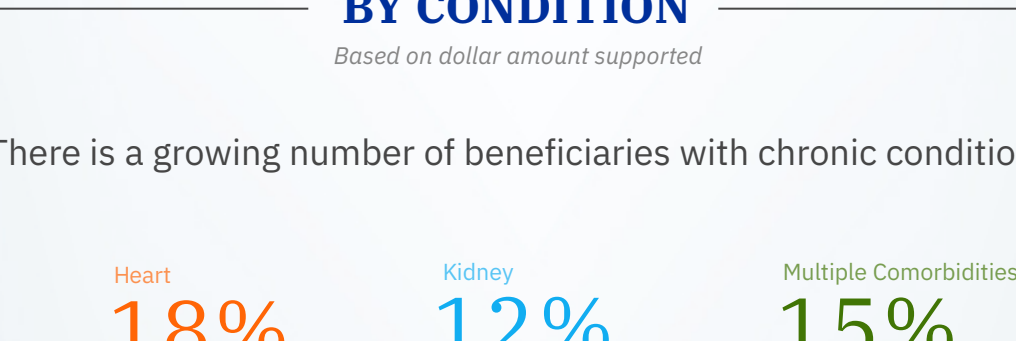

With the help of a medical social worker, from the NUHS Fund, which has provided a lifeline for her. This crucial financial relief has enabled her to focus on her recovery and gradually resume her caregiving responsibilities.

"I would like to express my gratitude to the NUHS Fund for extending assistance to me and my family when we needed it most. I am also deeply thankful to my medical social worker for her invaluable support." - Mdm Riah

BY FUNDING AMOUNT

Based on application data

Funding amount is decided based on financial assessment by Medical Social workers.

BY CONDITION

Based on dollar amount supported

There is a growing number of beneficiaries with chronic conditions.

Your Gift Matters!

Qiaochu, 29 years old, has Neuromyelitis Optica, a rare autoimmune disorder that affects her vision and spinal cord. Due to her condition, Qiaochu is unable to find a stable job and her family relies on her father's sole income as a cleaner.

When she contracted COVID in 2023, Qiaochu was hospitalised for close to 3 months due to complications. During this trying period, Qiaochu and her family experienced financial stress from the mounting hospitalisation bill as they have limited personal savings.

With the help of the NUHS Fund and generous donors, Qiaochu received financial aid to settle her outstanding hospitalisation bills so that she could focus on her recovery. She has gradually regained her health and continues to look for employment to help support her family.

"I am genuinely grateful for everyone's generosity which has helped my family during hard times and brightened up our lives. Thank you everyone!" - Qiaochu
